

## How to Clean SC Wake SeaDek

To remove dirt, footprints, suntan lotion (and more!) from your SC Wake SeaDek, we recommend **SC Wake Boat Juice, The Official EVA Foam Cleaner**. SC Wake Boat Juice is more concentrated than most cleaners, so a little bit goes a long way!

For spot treatments we recommend a 7:1 combination with water to keep your SeaDek looking brand new!

For best results, apply directly to your **SeaDek** surface and lightly mist with water. Move the **SC Wake Boat Juice** around with a light to hard bristle Brush. Let sit for 15-30 seconds, add a small amount of water to the surface, and lightly scrub again before rinsing. **SC Wake Boat Juice** is also safe for upholstery or carpet!

**For best cleaning results, tend to all stains, spills, and leaks as soon as possible.**

## Why Boat Juice

Formulated for cleaning the surface dirt off SC Wake Sea-Dek non-skid EVA, foam flooring. Immersion testing performed by submerging a piece of foam into the **SC Wake Boat Juice** formula for months with no oil effect.

SC Wake partnered with a professional factory with 50+ years of chemical experience. It's safe and effective, non-toxic, and environmentally friendly (CA Prop 65 compliant).

**Available in a convenient 32 oz. spray bottle for just \$19.99. Purchase online at <https://scwake.com/boat-juice/>.**
